

Trial Notes

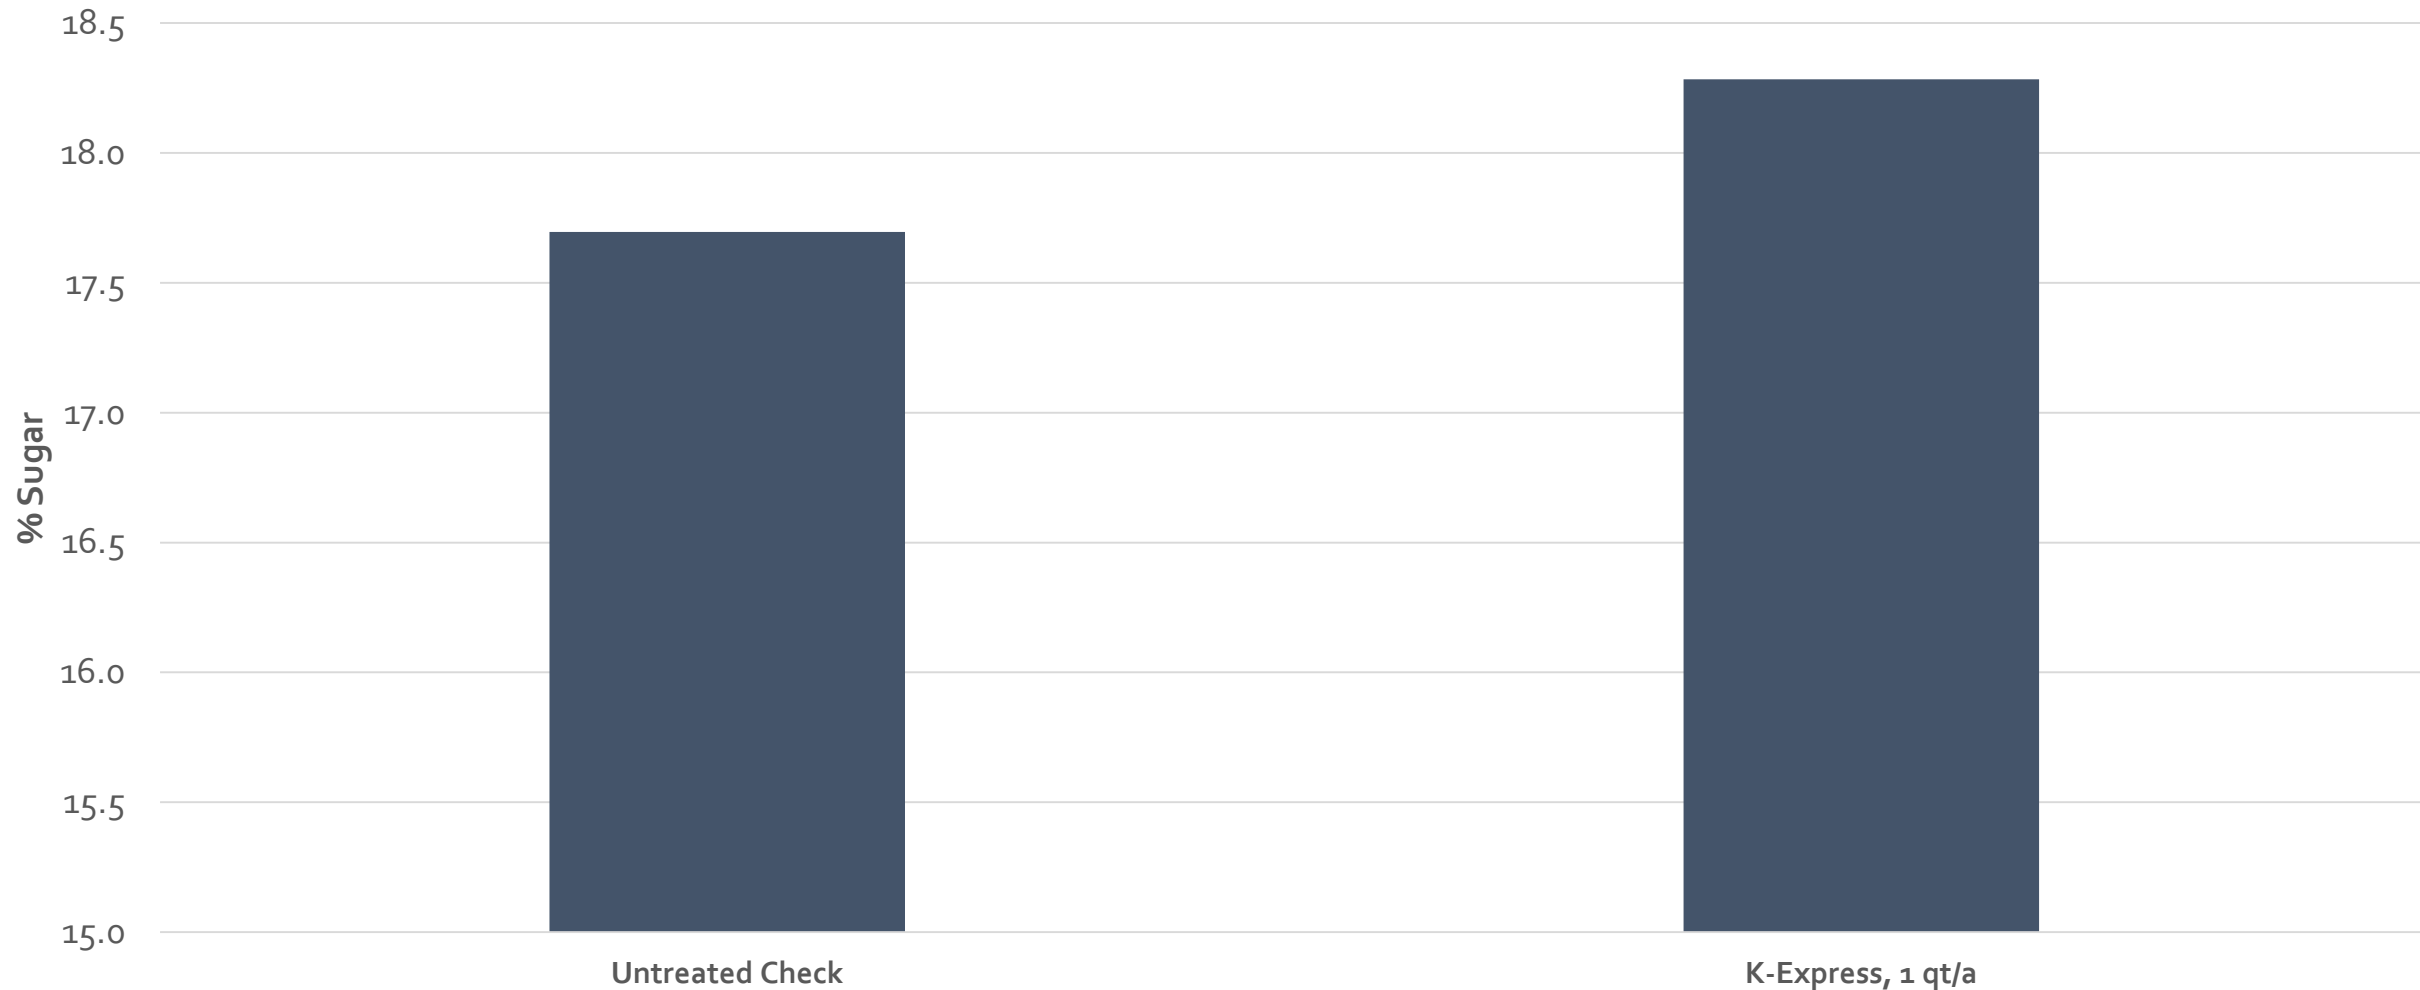

- According to SIPCAM AGRO:
 - “Liquid K-Express is a 32% EDTA liquid potassium that is highly available to the plant through foliar application. The main goal of K-Express is to enhance sugar content at the end of the growing season.”
 - “Ideal timing is late summer to enhance sugar production, or approximately 3-4 weeks ahead of harvest.”
 - “Can be mixed with a CLS fungicide application”
- Planting Date: May 15, 2018
- Application Date: August 28, 2018
- Harvest Date: September 29, 2018

K-Express – 2018

% Sugar

LSD (p=0.10): NS
CV: 3.41

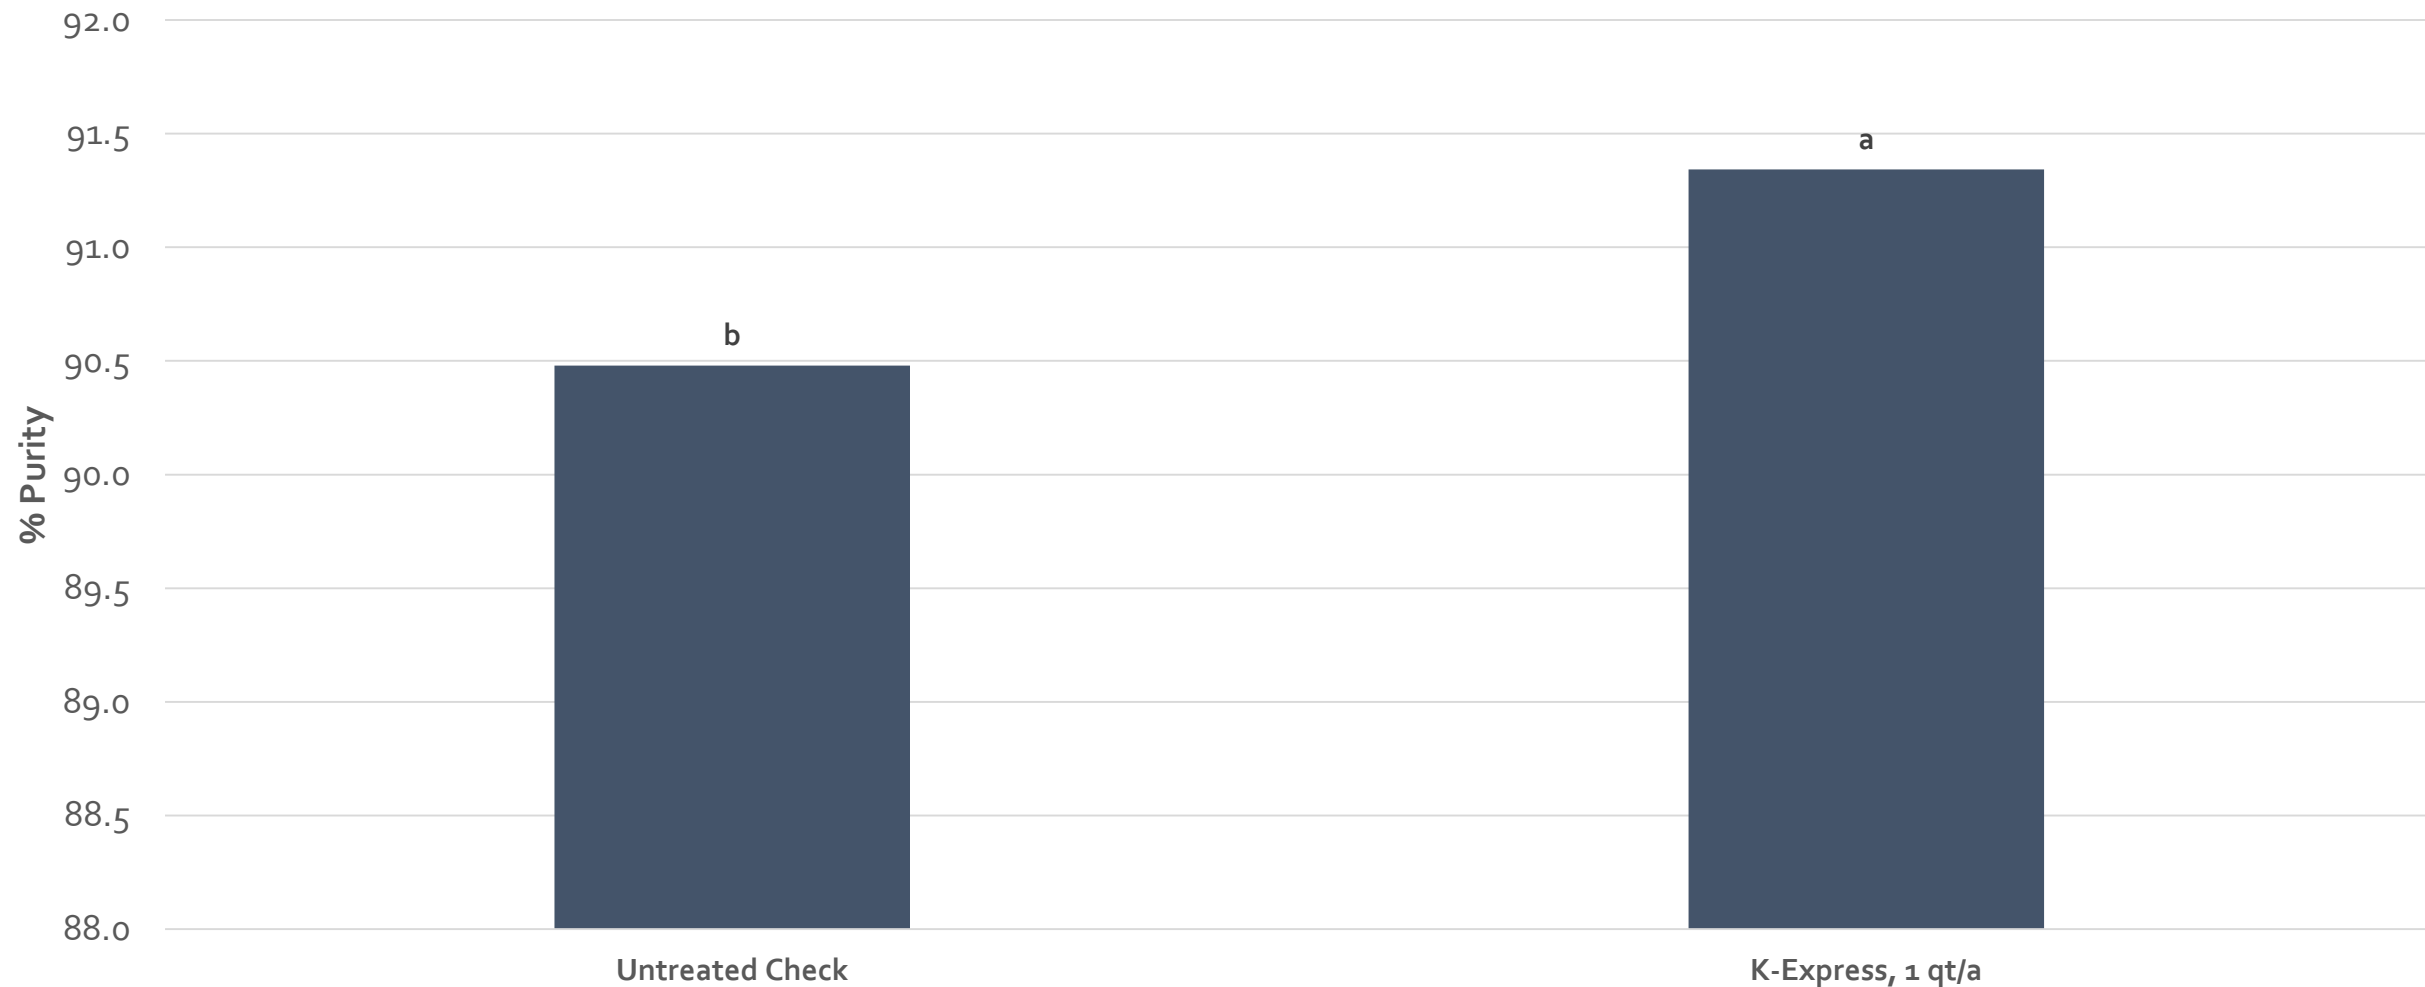

Treatments with the same letter are not statistically different

K-Express – 2018

% Purity

LSD (p=0.10): 0.43
CV: 0.35

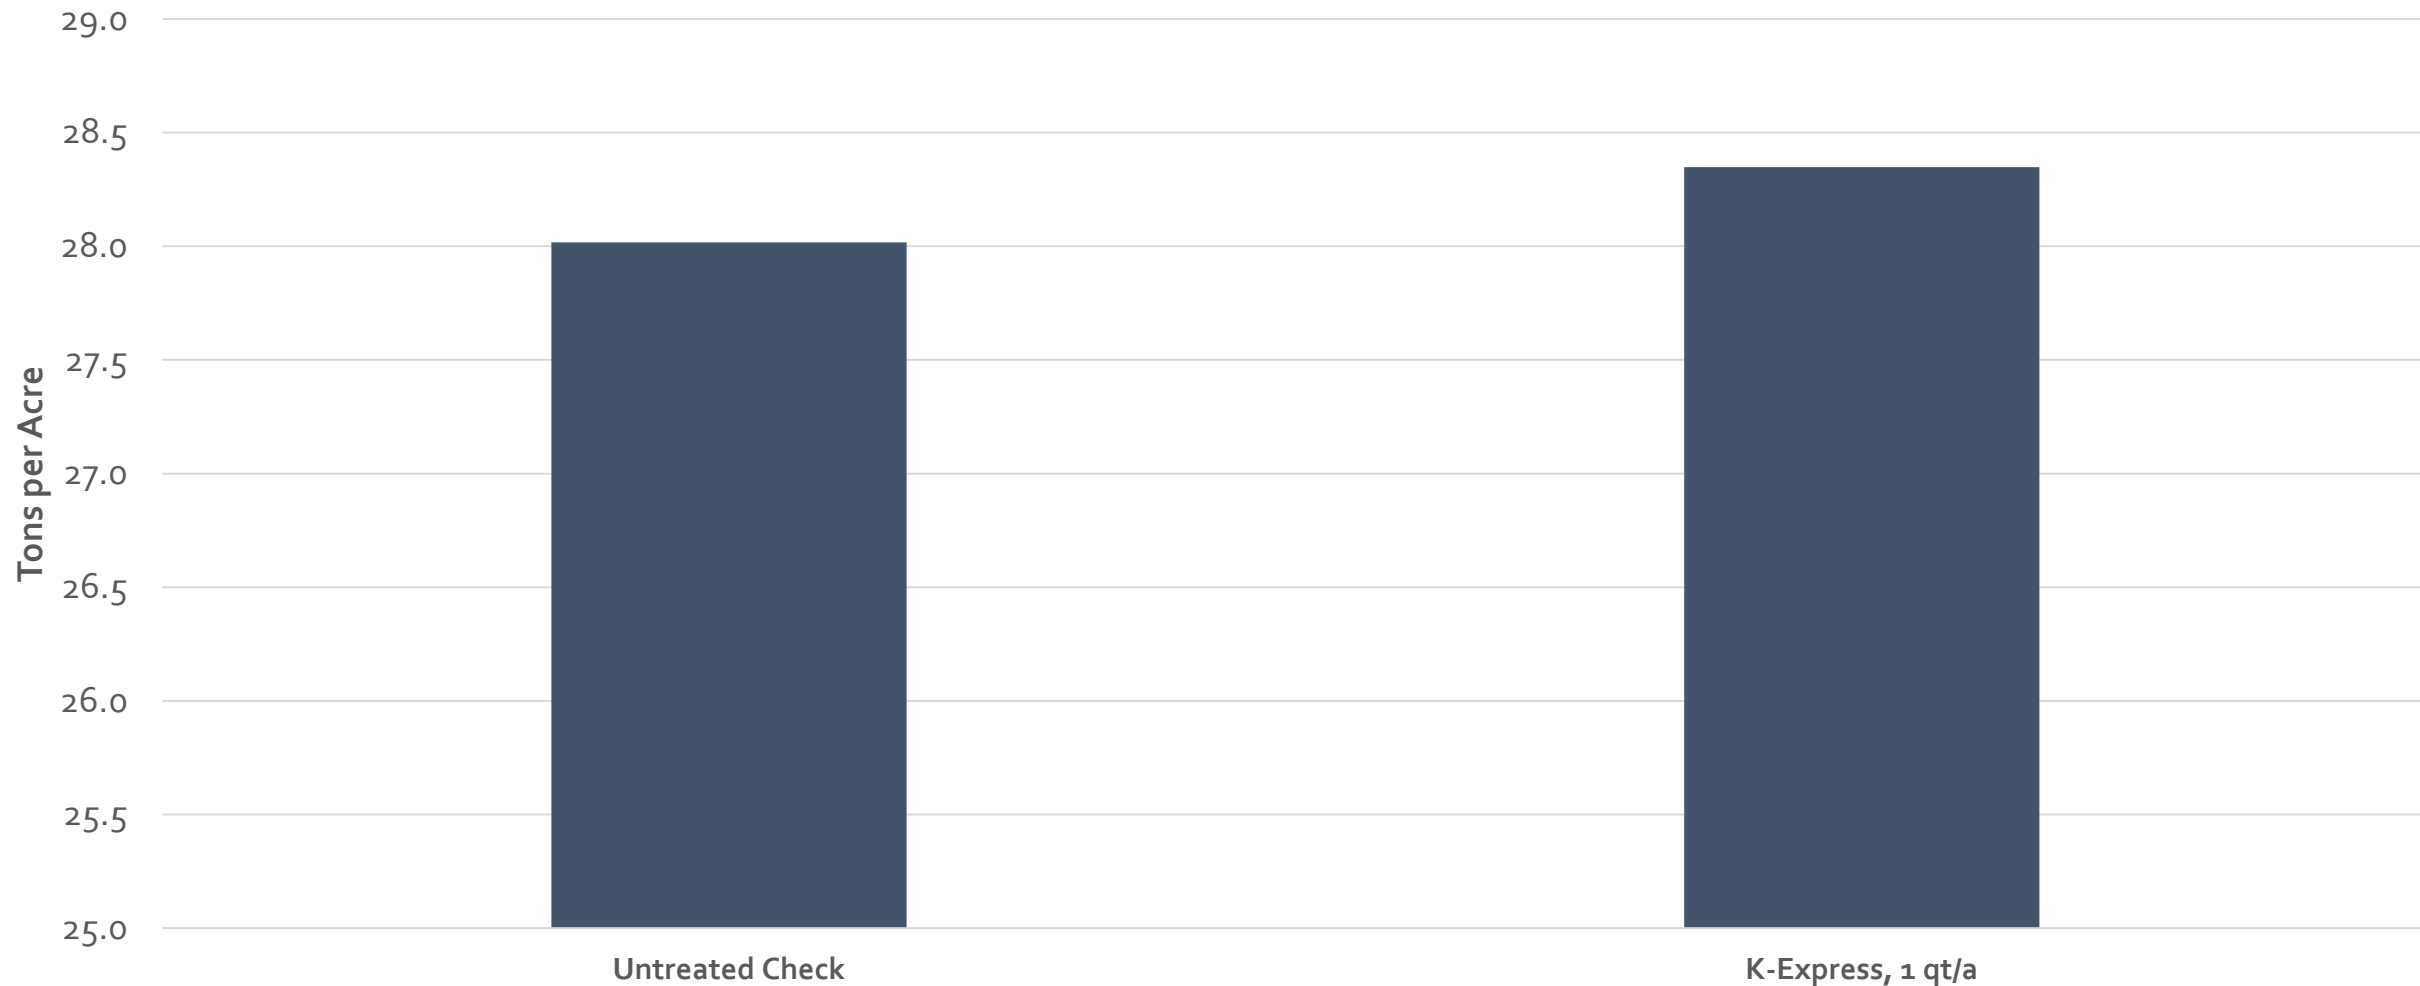

Treatments with the same letter are not statistically different

K-Express – 2018

Tons per Acre

LSD (p=0.10): NS
CV: 6.32

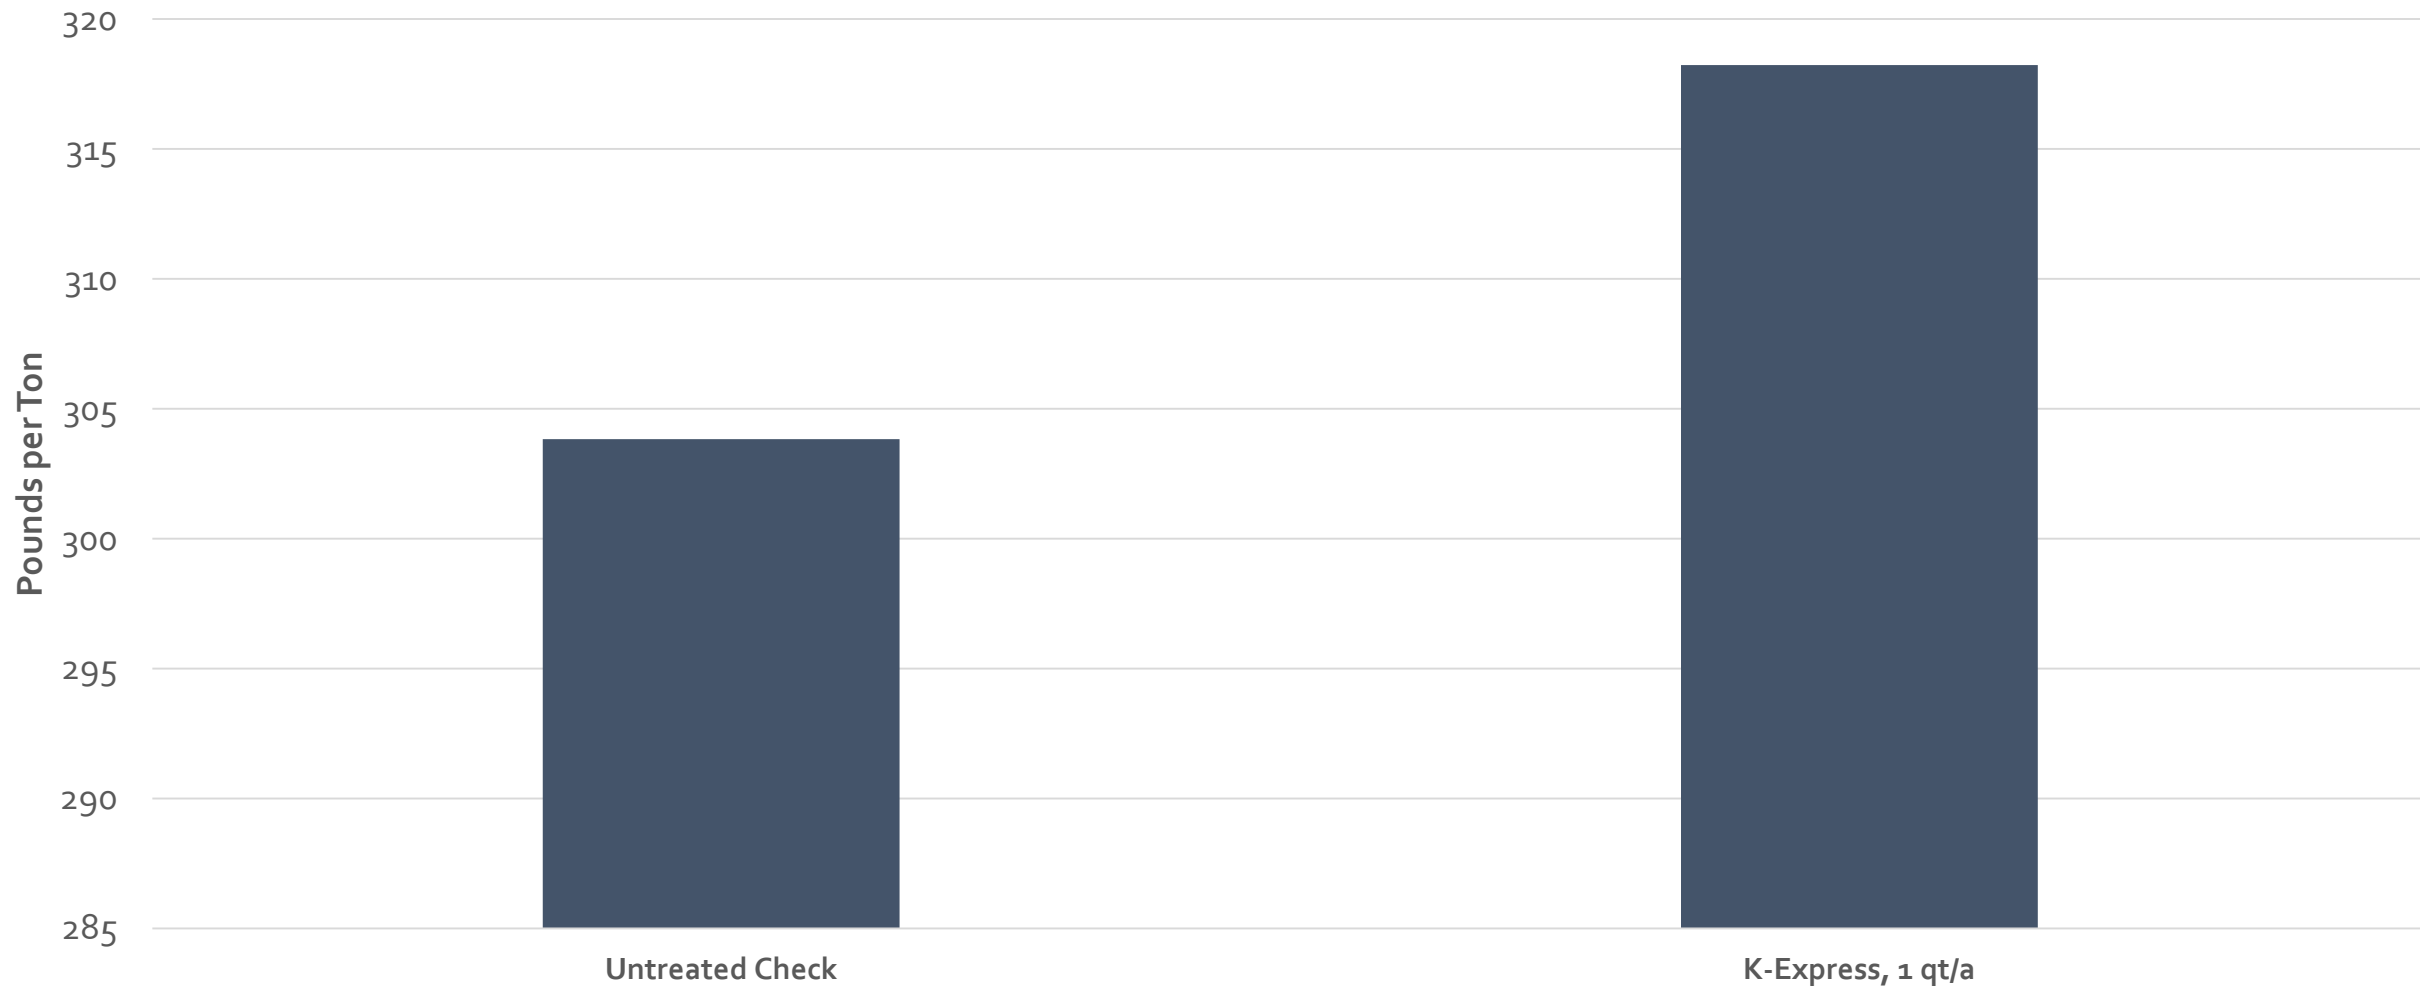

Treatments with the same letter are not statistically different

K-Express – 2018

Recoverable Sugar per Ton

LSD (p=0.10): NS
CV: 3.44

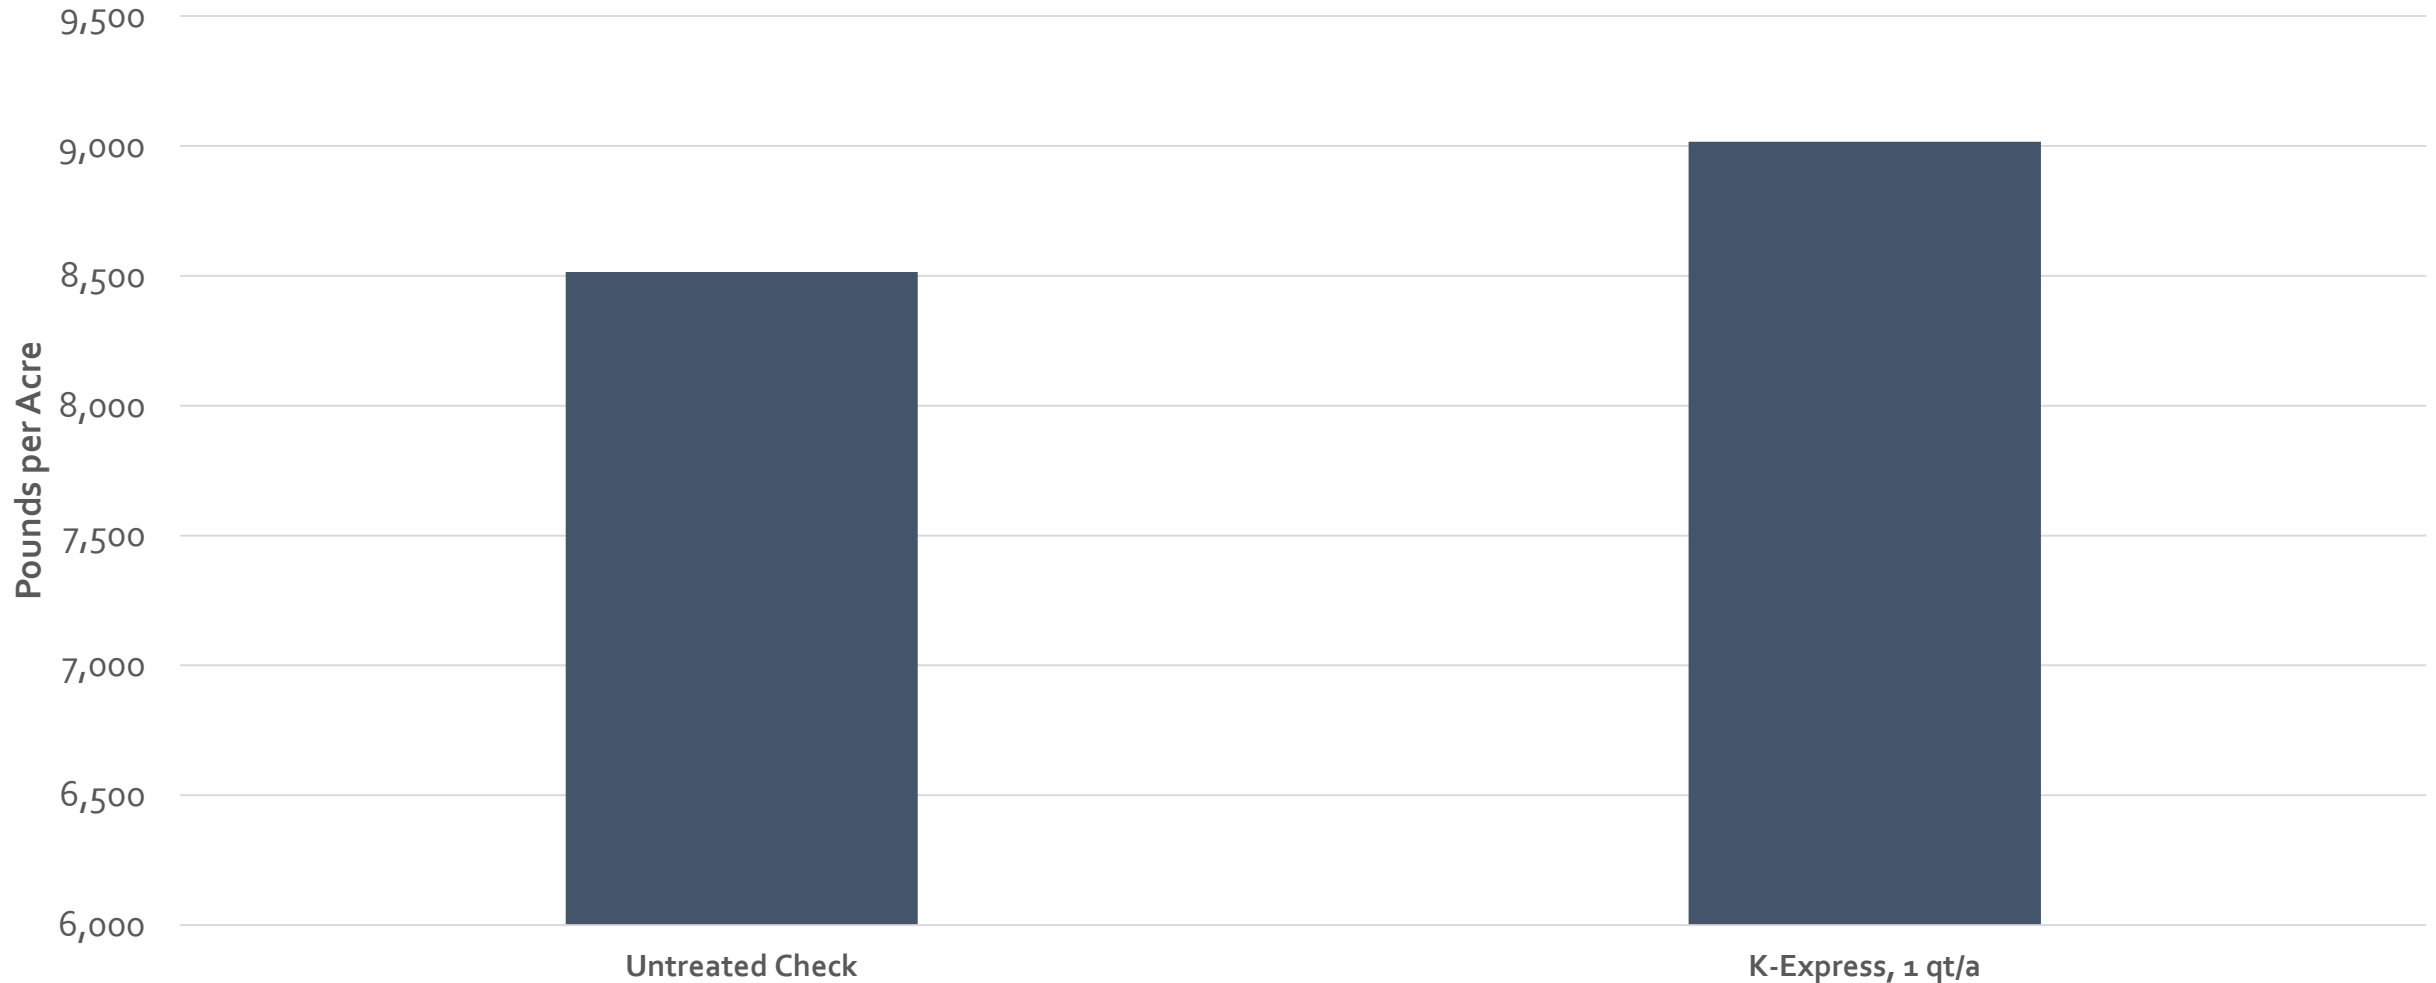

Treatments with the same letter are not statistically different

K-Express – 2018

LSD (p=0.10): NS
CV: 6.9

Recoverable Sugar per Acre

Treatments with the same letter are not statistically different
